

Catnip Square, 4" x 4"

(Approximate size once sewn)

Directions:

Print on 8 1/2" x 11" cardstock.

Cut out template along the outer edge of the solid black lines, clipping off corners.

Fold fabric in half, right sides together, selvage to selvage.

Lay template on the wrong side of fabric,

with the arrow parallel to the lengthwise grain of the fabric (the selvage edge).

Place templates at least 1/2" apart to leave room for seam allowances.

Trace around the template with a pencil.

Sew along the solid black lines, leaving the 2" opening.

Trim, leaving 1/4" seam allowances around the outside of the sewn square.

Press, turning back 1/4" at the opening.

Turn right side out.

Stuff with catnip.

Close opening by hand.
